FLUTTER DEVELOPER

Mobile Application Developer with 2 years of experience in Software Development fields. Successfully developed scalable e-commerce and utility apps, improving user engagement and performance. Passionate about building responsive and visually appealing frontend applications. I'm expert in mobile application development and web development.

PROJECTS

OnlineAngle (E-commerce)
Developed an e-commerce application for tech hardware, featuring user-friendly interfaces, secure payment integration, and optimized performance for both Android and iOS using Flutter.

GoldenCalculator (Finance & Utility)
Created an application that calculates the cost of a piece of gold based on weight, market price, and other variables, providing users with a simple and precise way to estimate gold value.
https://play.google.com/store/apps/details?id=com.aktech.goldcal&pcampaignid=web_share

FreshToneMyanmar (E-commerce)
An e-commerce application focused on glasses and eye-related products. Implementing responsive UI design, efficient product categorization, and streamlined checkout processes using Flutter.

Charite Perfume (E-commerce)
An application dedicated to premium perfumes, focusing on an elegant design, personalized recommendations, and a seamless shopping experience for fragrance enthusiasts.

TuneaTv (Entertainment)
Innovative streaming platform that seamlessly combines the best of YouTube and Spotify, offering a unified experience for both video and music streaming. Dream aims to redefine entertainment by providing users with a diverse library of videos, music, podcasts, and live content—all in one place.

EXPERIENCE

QHRM **July 2023 - March 2024**
React Native Developer

- Developed and optimized mobile applications using React Native for Android and iOS platforms.
- Implemented user interfaces and integrated RESTful APIs for seamless data handling.
- Troubleshot app performance issues to ensure smooth functionality.
- Gained hands-on experience with third-party libraries and tools.
- Enhanced problem-solving skills and understanding of the mobile development lifecycle in a professional environment.

App.com.mm **October 2024 - December 2024**

Junior Flutter Developer

- Worked as a Junior Flutter Developer at App.com.mm, specializing in high-performance, cross-platform mobile applications.
- Developed user-friendly interfaces and implemented responsive designs.
- Optimized app performance for both Android and iOS platforms.
- Collaborated closely with senior developers to enhance skills in Dart, Flutter widgets, and state management.
- Gained valuable insights into mobile development best practices.
- Became proficient in delivering scalable and reliable applications.

AXLE Tech **December 2024 - Current**

Mid Flutter Developer

- I worked as a Mid Flutter Developer. Building new projects and maintaining old projects.
- Design a beautiful and minimal mobile UI UX design.
- Collaborated closely with developers and designers to improve the quality of the projects and code.

CERTIFICATIONS

Certifications

- **Awarded by MCPA**
  - Certified Information Technology Professional (MCPA)
- **Awarded by CodeWall Technology, Local Programming School**
  - JavaSE Programming Certification

SKILLS

- **Mobile Development**
  - Flutter (Dart): Professional experience in developing cross-platform mobile applications, including building apps from scratch and maintaining existing projects.
  - State Management (Riverpod): Proficient in using Riverpod for efficient and scalable state management in Flutter applications.
  - React Native: Previous experience working on mobile applications in a professional setting.
  - Proficiency in Dart, Swift, Kotlin and Java programming languages.
- **Frontend Development**
  - Flutter (Web): Capable of building responsive web applications using Flutter with well-structured layouts.
  - Also familiar with developing web applications using HTML, CSS, and JavaScript.
- **UI UX Design**
  - Experience in designing intuitive and visually appealing mobile and web interfaces.
  - Understanding of design principles, user experience best practices, and accessibility standards.
  - Ability to implement pixel-perfect UI in Flutter based on Figma or other design tools.
- **Adaptability & Self-Learning**
  - Quick to learn and adapt to new technologies, frameworks, and tools.
  - Strong problem-solving skills with the ability to troubleshoot and optimize existing codebases.
  - Experience collaborating with developers, designers, and project managers to deliver high-quality applications.
  - Open to feedback and continuously improving through team discussions and user insights.
